

22nd to 26th of July

A FREE Fissure Sealant and Fluoride Varnish Program is coming to Risdon Vale Primary School for Kinder, Prep, Grade 1, Grade 2 and Grade 6

Strong evidence shows that:

- **Fissure Sealants** can help prevent and reduce tooth decay on the biting surface of the back (adult) permanent teeth.

- **Fluoride Varnish** can prevent decay and strengthen both the baby and adult teeth.

These grades (**KINDER, PREP, G 1-2 & 6**) were chosen as the aim is to protect your child's molars which erupt at around 6 years and 12 years of age. All other students can be seen at their clinic in Rosny— ph 1300 011 013. There is no cost for children under 18 years of age.

Please return your child's consent forms to the office ASAP.
