Courses on Offer

Coder College is excited to offer a wide range of courses over the Term 2 Holiday period. Each course will run for 2 full days* (9:00am to 3:00pm).

Monday 8th July - Tuesday 9th July

Intro to Python

Learn how to create games and build programs, through the power Python.

Python 201

Continue developing your Python coding skills by creating more complex programs and games.

Intro to Game Design

(Beginners Course)

Why play games when you can create games. Learn how to design your own games in this exciting course.

Intro to Robotics

(Beginners Course)

Want to make robots follow your commands? Learn how to control robots using code in this fun and exciting course.

Thursday 11th July - Friday 12th July

Game Design Intermediate

Further control your own game creation through the use of code. Step away from the predetermined settings and take your game to the next level.

Advanced Game Design

Want to learn one of the most premier game development platforms. Use Unity to create 3D games and VR worlds in this exciting course.

Intro to Movie Making

(Beginners Course)

Want to make professional home videos or even your own movies?
Want to learn how to add in special effects? Then this is the course for you!

Monday 15th July - Tuesday 16th July

Hacking Minecraft

Learn how to build structures, create games and manipulate the world of Minecraft through the power of code.

Intro to Coding

(Beginners Course)

A great starting course to the world of coding for those with no previous (or limited) experience.

Thursday 18th July - Friday 19th July

Intro to Mobile App Games

(Beginners Course)

Want to make Mobile App Games?
Perfect starter course for beginner coders.

3D Modelling and Design

Perfect starter course for those interested in creating complex 3D models & learning about 3D animations.
