KINDER CODERS

Have a young child interested in learning how to code?

Want to boost their creativity and problem solving skills in a fun and exciting way?

**Coder College is launching its Kinder Coder program
with courses aimed for 5-7 year olds.**

Overview:

This program runs short, fun sessions to promote imagination, creativity, and problem solving. Comprised of 2 possible programs, our Robotics course will have them playing with instructing a robot to move around and complete challenges. While our Coding program will introduce how to create animations and stories through using code.

Structure:

These fun courses can either be completed as individual half day sessions (2.5 hours) or enrol in both for a full day of fun.

ROBOTICS

A great starting course to the world of robotics. Learn about controlling and commanding a robot through a range of challenges.

Wed 10th or 17th July (9.00am -11.30am)

KINDER CODERS

A great starting course to the world of coding for those with no previous (or limited) experience.

Wed 10th or 17th July (12.00pm - 3.00pm)
